

GENERAL INFORMATION

Aims and Scope

The *Hong Kong Physiotherapy Journal* (HKPJ) is the official peer-reviewed publication of the Hong Kong Physiotherapy Association.

The Journal publishes papers related to all spheres of physiotherapy (education, research, practice, policies) and is committed to facilitating communication among educators, researchers and practitioners in the field with the aim of promoting evidence-based practice.

We are particularly interested in publishing randomized controlled trials, systematic reviews and meta-analyses. Animal studies are also welcome if the study question and findings have important relevance to physiotherapy practice.

The Journal welcomes submissions from all over the world in the form of original research papers, reviews, editorials, treatment reports, technical reports, and letters to the Editor.

The HKPJ is listed in CINAHL (Cumulative Index to Nursing and Allied Health Literature), EMBASE, Physiotherapy CATS (British Library), ScienceDirect, SCOPUS, SIIC Data Bases and SPORTDiscus (Sport Information Resource Centre).
